

IN THE SPECIFICATION:

Please amend the Abstract of the Disclosure as follows:

--The invention relates to a method for transferring data from a source communication device to a destination communication device. To allow automatic transfer of data between the devices, it is proposed to establish a data connection between the source communication device and the destination communication device, transfer a data collector ~~means~~ from the destination communication device to the source communication device, collect data to be transferred from the source communication device to the destination communication device using the data collector ~~means~~, and to transfer the collected data from the source communication device to the destination communication device using the data collector ~~means~~.--
